Information regarding the location of East Lothian Council (ELC) assets is given for your assistance and is intended for general guidance only. No guarantee is given of its accuracy, nor should be referred to after 28 days of issue. Existing ELC assets may not be recorded, and cable may deviate from marked routes.

Drainage is indicated by gullies that connect either directly to a Scottish Water system, or through a carrier pipe of ELC ownership. A visual inspection will reveal the exact location. Electricity cables are normally laid between 450mm and 1m deep, but obstructions or future works may have altered these depths. Absence of ELC cabling may indicate presence of Scottish Power cabling.

Safe digging practices in accordance with HSG47 must be used to verify and establish the actual position of underground assets before any mechanical plant is used, and your responsibility to ensure that this information is provided to all persons working for you near ELC assets. Any interference with, or damage to, ELC assets may result in harm. Authorities and contractors will be held liable for the full cost of repairs to ELC assets and all claims made against ELC by Third parties as a result of interference or damage. In the event of an emergency or should you require further assistance contact 01620 827827.
